ОГРН 1095030001131

Chunarev Sergei worked at “Rostelecom Information Technologies” from 9-th February 2022 to 5-th May 2023 as back-end developer.

He developed and maintained the server side of the personal account of PAO “Rostelecom” subscribers. Sergei joined the team and corporate culture easily when he was coming. He quickly mastered the work processes and the project. Sergei proved to be an executive and proactive employee, performing his tasks promptly and efficiently. Together with Sergei, a personal development plan was drawn up and he successfully followed it and improved his knowledge and skills. It allowed him to take on more complex tasks.

Sergei is pedantic, keeps documentation and always wants to understand the issue and it allows you to be confident that he will thoroughly investigate the issue.

I am confident he has good professional prospects and will continue to develop in his new company.

Kozlov Kirill Sergeevich,
head of development ООО «РТК ИТ» (signature/data)
